

AH 200 - AH 280

Wall back filter exhaust grilles

Product	AH 200 - AH 280	AH 200/N - AH 280/N
Installation	Verticale a parete	Orizzontale a soffitto
Construction material	Aluminium	Aluminium
Finishing	Natural anodized	Natural anodized

Exhaust grilles complete with filter
AH 200 and AH 280 are made for vertical wall mounting:

- AH 200: extruded aluminium frame, horizontal fixed vanes, anodized, with 40° deflection
- AH 280: extruded aluminium frame, aluminium central grille with square mesh 12,5 x 12,5 mm

For both models extruded aluminium frame for 12 mm thickness filter mod. PFC (class G2), front plate fixed to the frame with mechanical fixing with hidden springs. For horizontal ceiling installation versions AH 200/N and AH 280/N are available, with same construction of base model with mechanical fixing with safety hidden screw.

Applications Grilles AH 200 and AH 280 are used in all civil, residential and light commercial applications. Access for maintenance is quick and easy.

Installation Installation is not visible internal to the frame;

vertical wall mounting:

AH 200, AH 280

horizontal ceiling mounting:

AH 200/N, AH 280/N
