

GK 150

Steel wall exhaust grilles

Product	GK 150
Construction material	Steel
Finishing	RAL 9010

GK 150 exhaust grilles are made with phosphate coated steel and are stove enameled (RAL 9010).

They are fitted with stamp-formed horizontal vanes with 20° inclination.

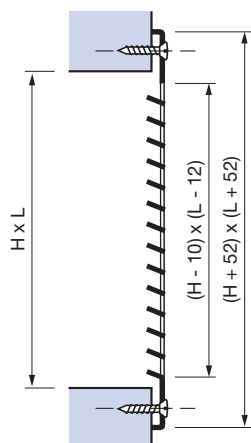

They come in different sizes and meet the requirements of small and medium indoor air system.

GK 150 grilles are used for exhaust air systems in conditioned rooms and are suitable for vertical wall installation.

Applications GK 150 are especially used in small and medium conditioning and thermal-ventilation systems.

Installation GK 150 grilles are for vertical wall installation, using screws on the outer frame.
